

### Daniel 11-12 reminds us of two things:

- 1) Human pride is devastating for people but empty before God's sovereign reign.
- 2) God knows and controls every minute detail of human history.

The big picture of chapter 11:

- 2-20 Greek domination and division
- 21-35 Antiochus IV Epiphanes
- 36-45 Antichrist

The myth of personal autonomy is hollow before the truth of God's sovereignty. Human pride is devastating for people but empty before God's sovereign reign. God reigns and saves despite the chaos caused by egocentric human leaders.

2-4 The fall of the Medes and Persians leads to the rise of Greece.

5-9 Ptolemies (South) vs. Seleucids (North) prior to Antiochus III

10-20 Seleucid domination under Antiochus III

*He shall stumble and fall, and shall not be found.*

The emptiness of human pride.

*He shall be broken...*The emptiness of human pride ends in a hollow echo chamber of human history.
